2	Multan Mull, Sowcar, both residing in Shoolay, Civil and Military Station of Bangalore.			

P. S. KRISHNA RAO, *Dt. Judge.*

MYSORE CITY MUNICIPALITY.

REVISED RULES FOR THE REGULATION OF HOUSE-CONNECTIONS FROM THE VANIVILAS WATER WORKS.

1. The supply of water from Vanivilas Water Works being intended exclusively for *bonâ fide* domestic purposes, the water drawn therefrom, whether from public fountains and taps or from private house-connections, shall not be used for any other purpose whatsoever. A supply of water for domestic purposes shall not include a supply of water for horses or washing carriages, where such horses or carriages are kept for sale or hire, or a supply for any trade, manufacture or business or for fountains or for any ornamental or mechanical purpose or for watering gardens or roads. Water which has been used for washing, bathing or other domestic purpose may be collected and used for gardening or other non-domestic purposes, but on no account should pure water be drawn from the taps for these purposes, provided that, with the special permission of the President, water may be taken from the fountains and hydrants for watering public roads on special occasions.

2. Until further orders, private connections to houses from the Vanivilas Water Works will be limited to houses whose annual rental value is not less than Rs. 120 and to localities where the capacity and pressure of the public water mains permit of such connections being made without detriment to the street service.

3. For every house-connection there shall be provided and maintained in due working order, a water-meter of approved size and description for the accurate gauging of the water consumed, provided that the Municipality may, on the ground of cost, dispense with the erection of water-meters in the case of very small houses not likely to consume more than the free allowance referred to in Rule 7 below.

4. All pipes, taps, water-meters and works required for a house-connection, shall be of such dimensions, character and material as the Municipality may approve, and they shall always be under the control of the Municipality, and shall in no way be interfered with by any others, and they shall be provided-renewed and repaired by the Municipality. The cost of all pipes, taps and works required for a house-connection shall be borne by the householder applying for or desiring the connection, who shall pay in advance the estimated cost. The whole should be fully paid for before the house-connection is permitted to be used. The Municipality will supply, fit up and maintain the meter at its own cost.

5. The Municipality shall determine the size of each house-connection with due regard to the capacity and pressure of public water-mains of the locality.

6. The house-connection in any case is liable to be stopped or the supply reduced by the Municipality, without any notice or assigning any reason. But when stoppage is over an extensive tract, or due to exigencies which are previously foreseen, such previous notice as is possible under the circumstances, will be given by the Municipality. If the Municipality has reason to believe that wasteful or unauthorized use is made of water drawn from any house-connection, it shall be its duty to stop such connection forthwith under this rule.

7. The quantity of water which a householder will be allowed to draw from his house connection (free of any charge other than the general water rate to be assessed upon the annual rental value of his house and premises) shall be regulated in accordance with the scale hereunder :—

For every Rupee of the rental value of the house and premises, the authorized free allowance will be 160 gallons, but in no case such free allowance shall be less than 3,000 gallons per month.
